PROJECTS/ LIVE PROJECTS

Project Finance Model – Charge Fast EV Charging Network | LPU

Apr 2026 – May 2026

- Constructed a 10-year project finance model to evaluate the investment feasibility of a 1,000-unit EV charging network across six Indian metros, incorporating capex planning, debt financing, and operating assumptions.
- Performed cash flow forecasting, debt capacity analysis, and return assessment, yielding a 38.0% Equity IRR, 14.4% Project IRR, and positive NPVs of ₹14,100L and ₹3,665L, respectively.

Leveraged Buyout (LBO) Model – Dr. Agarwal's Health Care Ltd. | LPU

Jan 2026 – Mar 2026

- Developed a five-year LBO model to evaluate the acquisition feasibility of Dr. Agarwal's Health Care Ltd., incorporating operating projections, capital structure assumptions, and debt financing scenarios.
- Modeled cash flows, debt repayment schedules, and exit valuation, estimating a 43.6% IRR and 6.1x MOIC under a 10.0x exit EBITDA multiple scenario.

Target Costing & Profitability Assessment – “Fold & Go” Product Evaluation | LPU

Oct 2025 – Dec 2025

- Determined an optimal selling price of ₹300 and target cost of ₹250 for the proposed product through competitor benchmarking and demand-based pricing analysis.
- Developed a cost model covering direct costs, overheads, and distribution expenses, identifying an unfavourable cost variance of ₹6.77 per unit against target cost and recommended sourcing and logistics measures to sustain a 16.7% target margin.
